

Directions to the Girton Flying site

Post code for SatNav is **CB3 0FH**

From Cambridge - Turn right at Girton Corner on Huntingdon Road (just before Girton College). Proceed along Girton Road and Cambridge Road to the centre of Girton.

From Histon - take Park Lane onto New Road to the junction with Oakington Road and turn right.

From Oakington - take Cambridge Road south eastwards to Girton. Once in Girton, turn right off the High Street onto Cambridge Road.

These roads will take you to Girton Village centre (Cambridge Road, where you need to look for the Primary school, Village Recreation ground and the Church).

Arriving for the first time, it is suggested that you park in the Car Park by the Council Office and Sports Pavilion and walk diagonally across the Rec/Cricket Field to the gap at the North East corner. This will take you to another field known as the 10 Acre Sports Field and which is usually marked out with multiple Football pitches. Observe the state of the ground.

In summer when the ground is dry and hard we are allowed to take vehicles onto the field (via the lane between the Pavilion & primary school). Recommended speed limit is 5 mph.

GREAT CARE must be taken to avoid other users, children and dogs, both on

the lane and on the field. If the field is not dry & hard, **Do Not** attempt to drive onto the field.

Flyers of larger RC models should note that other people may be on the field which may affect safety and that great care must be exercised.

For access to the lane you will need a code for the gate which must be kept closed and locked after entering and/or leaving. A committee member will supply the gate code on request.
